

PROGRAM LEARNING OUTCOMES

By participating in the **LGBTQIA+ Information and Wellness fair...**

LGBTQIA students will **learn where they can seek assistance** for any of their mental, sexual, emotional, or physical health needs

LGBTQIA students will **establish a connection and begin forming trust** with health care professionals and institutional representatives

CURRENT NATIONAL STATISTICS

2018 Healthcare
Equality Index

LGBTQIA students will **experience more comfortability** when pursuing a health-based need at Colorado College

LGBTQIA students will **understand where to seek help** for sexual harassment and assault, domestic violence, and other forms of harm

LGBTQIA students will **acquire information** about on-campus student organizations and finding community

Student allies will **gain a better understanding** of LGBTQIA health and what contacts to utilize when assisting others

PROGRAM GOALS

- Offer LGBTQIA+ information & Wellness Fair twice a year
- New Student Orientation & first week of 5th block

- Collaborate with applicable functional areas on campus and possibly outside community partners
- Provide necessary connections and resources for students

- Bring heightened visibility to LGBTQIA+ health at Colorado

LGBTQIA+ INFORMATION & WELLNESS FAIR

NOBLE GOUGH

The mission of the **LGBTQIA+ Information and Wellness Fair** is to:

provide a brave space to **empower students** to feel in control of their health related matters,

build rapport with health care providers, institutional representatives, and their peers

while simultaneously receiving resources related to their **holistic wellbeing**.

52% of transgender respondents reported that they believed they would be refused medical services because of their LGBTQ identity

73% of transgender respondents reported that they believed they would be treated differently by medical personnel because of their LGBTQ identity

29% of lesbian, gay, and bisexual respondents reported that they believed they would be treated differently by medical personnel
